

## CS411 Weekly Report

"Iron Team" TasteBuddies

Weekly Development Report # 5

Performance Period: Wednesday 2/12 - Tuesday 2/18

### 🔍 Group Accomplishments:

- 🍌 Taste-Profile questionnaire is setup and adjusted with photos to be more interactive. May need more adjusting
- 🍌 Two meetings this week, one official one spontaneous rehearsal.
- 🍌 Official meeting on Friday focused on getting presentation ready, organizing and assigning slides and getting scripts. Also discussed plans for future sprints and individual tasks
- 🍌 Second meeting was spur of moment rehearsal to practice and hear scripts, as well as practice slide changes. Andrew joined towards the end which was unexpected but welcome, and we did some brainstorming for taste matching and additional database design conversation and modifications.

### 🔍 Individual Contributions/Accomplishments: (to be filled out by each individual)

#### 🍌 Colette Woods:

- 🔧 sourced preliminary images for dishes and restaurants
- 🔧 updated the index again (man, I hate you g-slides)
- 🔧 Wrote terrible script for opening presentation
- 🔧 Created task slides and attributed self tasks

#### 🍌 Grant Fitch:

- 🔧 Collected and organized images to make taste profile setup more interactive and visually appealing
- 🔧 Logic to integrate taste profile to user setup and save to database connected to user.
- 🔧 Worked with Nate to organize and display database
- 🔧 Implemented and debugged logic to save taste profile information to user.
- 🔧 Helped lead meeting to organize slides for presentation as well as responsibilities for scripts and updating slides. Also broke down sprint tasks into smaller tasks to be assigned to individuals.
- 🔧 Updated and completed personal script and filled out tasks on the awesome task slides Colette created. Got my tickets

#### 🍌 Ashley Barasebwa:

- 🔧 Wrote script for presentation
- 🔧 Added main branch into my VisualStudio Code

#### 🍌 Ben Nissley:

- 🔧 updated 411 project website
- 🔧 Refined the taste profile setup front end
- 🔧 Cleaned up login-page front end (styling changes)

Kommentiert [1]: sorry!

Kommentiert [2]: I am worried

## CS411 Weekly Report

- 🔧 added tasks to personal slide in Prototype Demo presentation
- 🔧 made github issues for sprint 3 tasks

### 🍔 Oronde Brown:

- 🔧 Created front end page for tastebuds section
- 🔧 Implemented functionality to search for other users 😬

### 🍔 Nathanael Donald:

- 🔧 Worked with Grant on organizing and displaying the DB
- 🔧 Edited the MFCD, dev tools, and DB slides, also updated my part of the script from bad to less bad.
- 🔧 Worked with Andrew and Grant to make the DB schema "Andrew approved!"
- 🔧 Sorting out SQL statements and SQLAlchemy functions for the front and back end teams to use.

### 🔍 Issues/Concerns:

- 🍔 Github Issues: We need to get tasks setup and start tracking. Moving into development.
- 🍔 TasteProfile setup: Is it too long? Do we need to shorten it?
