

CS411 Weekly Report

Iron Team TasteBuddies

Weekly Development Report # 9

Performance Period: Wednesday 3/19 through Tuesday 3/25

🔍 Group Accomplishments:

- 🍔 Team meeting held on 3/21 to discuss upcoming presentation as well as team progress and plan
- 🍔

🔍 Individual Contributions/Accomplishments: (to be filled out by each individual)

🍔 Colette Woods:

- 🔪 Made functional Dishes page
- 🔪 Made functional Dish Details page
- 🔪 Implemented the save dish function

🍔 Grant Fitch:

- 🔪 Worked with Colette on dishes and dish details page, implementing backend logic.
- 🔪 Continued to work on Daily Dish feed backend and basic front end functionality. Currently displays friends reviews, suggested dishes, and saved dish reminders.

🍔 Ashley Barasebwa:

- 🔪 Worked with Colette and Oronde on groupMatching UI
- 🔪 Created Javascript function in toogleBuddies.js
- 🔪 Added a Basic set of group matching

🍔 Ben Nissley:

- 🔪 Made cosmetic changes to taste profile setup (progress bar) as well as added opt-out early buttons on each step
- 🔪 Optimized profile page
- 🔪 added "user.html" to view other users' profiles

🍔 Oronde Brown:

- 🔪 Implemented logic to find overlapping dishes for group matching

🍔 Nathanael Donald:

- 🔪 implemented live update on restaurant pages.
- 🔪 removed old database schema logic. Added current database schema logic. (live update, user/dish allergens tables, user relationship to live update)
- 🔪 Quietly maintaining working-passwords branch as a personal learning side project.

🔍 Issues/Concerns: Examples below...

- 🍔 Daily Dish suggestions is pulling lower reviews: revisit algorithm and have it take reviews from higher matches. - GF
